INFRICO is a Family owned & operated Manufacturer based out of the Southern region of Spain, a major Global Market Player for almost 37 years in the production & sales of **“HIGH SPEC” Commercial Refrigeration Equipment**. With our NORTH AMERICA H.Q. located in Miami FL, our products are located across the United States since 2011 with incredible success.

Our line is design driven, perfect for almost any type of environment, whether you work with **bakeries gourmet cafés, luxury hotels & resorts, restaurants, entertainment parks, casinos, schools, airports, sport stadiums, grocery stores, or supermarkets**. Part of this success comes from the **strong relationships** we keep building with our Customers, Dealers and Consultants throughout the country, who contribute enormously in specifying our products for multiple projects across the USA.

We carry a vast supply of parts stocked locally and have been able to establish a solid U.S.

service network with access to the **top authorized service agents across the country**. Our equipment is warehoused in multiple U.S. locations and is manufactured to the highest international quality standards and regulations. Infrico offers an incredible diverse range of options such as **Reach-ins, Wine coolers, Under counters, Prep Tables, Retro Refrigerators, Blast Chillers & Shock Freezers, Sushi Cases, Supermarket cases, Euro-style bakery cases, Gelato cases, Air Curtains Grab n’ Go cases**, and much more...

We look forward to serving you soon.

Infrico USA

North America Division

INFRICO was established in 1986 with a clear objective: to produce the best refrigeration solutions adapted to the specific needs of each customer.

Technological vanguard, certified quality and the excellence of its products are the guarantees to support its commitment to innovation. This is what has positioned Infrico as one of leading commercial refrigeration equipment manufacturer across the world. Infrico offers a very wide range of equipment

that covers everything related to refrigeration for the **Foodservice** sector to include, bakery, pastry, ice cream, wine cooler equipment and more, also **Supermarket Retail Equipment**.

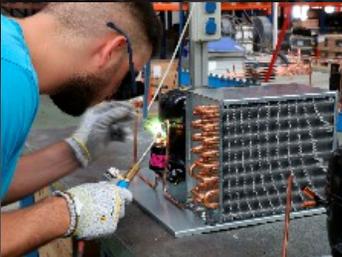

Infrico has customers around the world and a large share of the national market, as we continue the growth process and expansion throughout the world. Infrico currently has more than seven hundred employees spread across 13 branches in Spain and 16 worldwide.

Infrico

Features

Sanitation

- Rounded interior corners.
- 4" Diameter caster with locks.
- Internal drain trap with plug for ease of cleaning.

Doors

- Hinges built with self-closing system and stay open door mechanism.
- Triple chamber door gasket for easy removal.
- Integrated door handles.
- Field reversible door feature available on single section uprights and all our horizontal equipment.

Refrigeration system

- Removable condensing units.
- Anti-corrosion evaporators.
- Monoblock [INFRIBLOCK®] on our top mounted equipment, for easy service, cleaning and repair.
- Expansion valve [AGB-AN Line].
- Capillary system.
- 100% Polyester coated evaporators.

Quality assurance & continuous improvement

- Our laboratories are approved according to Council Directive DC 2004/108/CE of Electrical Safety and Electromagnetic Compatibility DC 2006/95/CE.

Stock

- Multiple warehousing facilities located across the United States.

Cabinet

- Insulation with free CFC's.
- Exterior and Interior built-in AISI 304 & 430 Stainless Steel.

Control system

- High precision temperature control.
- The temperature probes are NTC type.
- Automatic defrost cycle.

100% Tested

- Helium gas chambers manufactured by "Lazzero Technology", to avoid refrigerant leaks.
- Nitrogen - Helium - Refrigerant. Individually tested.
- Audited and certified by INTERTEK to fulfill the UL 471 and NSF-7 standards; applicable in the U.S. and Canada. We are part of Satellite program.

Warranty

- INFRICO offers a 5 years parts & labor warranty for all products. Includes a 7 year compressor warranty.

Production

- 2 million square foot factory dedicated to the manufacturing of commercial refrigeration equipment
- All products go through individual testing

Infrico

Quality & Benefits

- The steel used is 304 and 430 stainless steel. We've heard some evidence that some competitors' companies use 200 steel, with a lower nickel percentage and prone to rusting.

- The condensers and evaporators used are tested specifically to withstand pressures of 150 bars, meeting the specifications of the standard. For that purpose, we use 0.5 mm copper tube coils and 0.15 mm fins, with epoxy treatment in case of evaporators. In retail, microchannels are widely used, but we've decided to replace this type of condensers with the traditional ones with tubes and fins, which offer greater assurance against a possible future blockage due to dirt and malfunction

- We use polyurethane with HFO as a blowing agent. In this way, we improve the energy efficiency thanks to a greater thermal conductivity coefficient of isolation. This, along with 2.95 inches insulation thickness used in cabinets, enhances the efficiency by 15 %.

- Regarding the compressors used, all of them are from renowned brands recognized in the market: Tecumseh, Embraco, Secop. Infrico was the first manufacturer to introduce R290 compressors in the USA, increasing sustainability with a GWP=0 gas, and a higher energy efficiency.

- The digital controllers are from recognized brands in the industry, such as EVCO, Dixell, Carel and Eliwell.

- In respect of fans, we use electronic fans which reduce greatly electricity consumption and noise and are prepared to work with hydrocarbon gases. They're also from prestigious brands such as EBM.

- The LED lighting is IP67. It's siliconized for a greater protection against humidity, and its connection with the bicolor cable is welded by the manufacturer, with IP67 protection too.

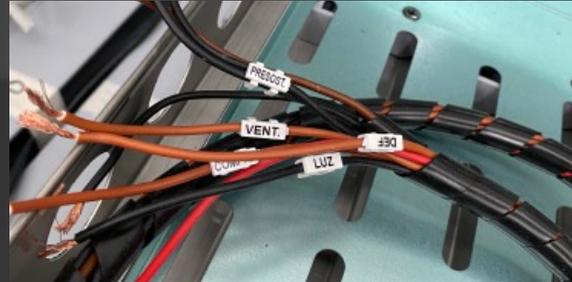

- All power supplies are from Meanwell, a notorious brand known worldwide for its quality.

- As for the solenoid and expansion valves, we use reputable brands, such as Danfoss, Castell, Parker and Sanhua. All freezer units are equipped with expansion valves, as well as some refrigeration equipment, improving the refrigeration performance and energy efficiency.

- The wiring is placed in corrugated pipes, well organized and distributed, with the appropriate protection, identified and numbered to facilitate its interpretation in the wiring diagram [we've observed that, in different devices, there's a lot of disorganization in the wiring, which can cause failures during repairs].

- All electrical equipment complies with UL standards.

- All devices with R290 have a load, safety, triple shut-off valve. In the event of a technical assistance, it makes it easier to check the pressure, load, or vacuum of the circuit, and then it can be resealed with the safety plug. We think our competitors either don't have a load valve or, if they do, it's not a safety valve. If not used, repair time will be longer and, in turn, the customer's bill will increase.

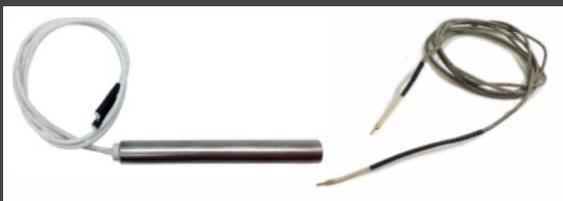

- The hinges guarantee a minimum of 75.000 cycles of openings with damping system. Larger doors are equipped with double closing hinges.

- The interior of AGB cabinets is made of steel inlay, resulting in a diaphanous interior, which makes cleaning easier.

- Regarding the resistors, we use armored demister resistors in stainless steel. We know that our competitors use resistors with a lower level of protection. As for the cartridge heaters, we use those from IRCA, known by its reputation, which are made of incoloy steel, with greater resistance to corrosion and greater durability. The trays of the display cases and other cabinets are made of AISI 304 stainless steel.

Infrico

Quality & Benefits

- High resistance wheels [331 Lbs/wheel minimum].

- The carbon steel grilles and wire shelves are compacter [meaning less separation between rods] and epoxy treated. All cabinets with glass doors have grilles with reinforcing rods, resulting in more resistance to bending and, in the end, a higher load on the grille.

- PVC profiles, prepared to withstand the effects of cold.

- The self-closing drawer slides, from Falterer, a worldwide known brand, are made of stainless steel. They have a resistance of 165.3 lbs. on tables [154.3 lbs. in total extraction] and 264.5 lbs. in MSG. The damping system is authorized to work at a temperature of up to -13°F without blockages. These slides, in addition to being resistant, prevent the drawer from oscillating during closing. Falterer has detected that some franchises, such as McDonalds and Burger King, among others, have authorized slides that can work up to 300.000 cycles with a reduced load. This requirement is met by our slides.

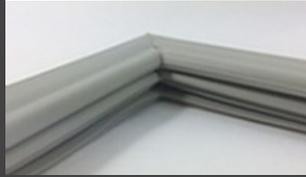

- Tempered glass. In negative temperature devices, triple glazing, low emissivity glass with argon charge is used.

- Handles with ergonomic and resistant grip.

- PVC gaskets, prepared to resist grease and have a long lifespan, with easy-to-clean geometry and triple inner chamber to favor isolation.

- Wooden packaging, with internal polyethylene protections, ensuring high impact resistance and rigidity for land transportation, loading, and unloading.

- All condensing units are tested with a helium machine to guarantee their water tightness.
- All devices undergo several cycles of circuit vacuum and load tests, electrical standards tests and performance tests before accepting their compliance.
- Records of components used and tests performed are controlled and stored in our system to ensure their traceability. A test compliance report is issued for each device. All lines converge in a test and quality control room.
- We have a test laboratory where tests are performed to ensure the compliance of the devices with the regulations, their correct performance in the different climatic classes and the control of their energy efficiency. Our laboratory is certified by Intertek and recognized as "Satellite" lab within its reliable laboratory certification program and has two cutting-edge climatic chambers to reproduce any climatic environment and obtain results in compliance with the regulations.
- Efficiency technical data are registered on DOE and updated on a regular basis if there are improvements in the design.

Specifications

Triple chamber snap in door gasket for easy cleaning

Reinforced shelves

Compact monoblock system [AGB models]

AGB23

AN23_2

AN49 CR

Exterior

- AISI 304 stainless steel

Interior

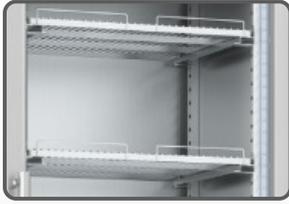

- AISI 430 stainless steel
- Sealed interior floors and rounded cabinet corners
- Led lighting
- Internal drain plug for easy cleaning.

Shelving

- Three plastic coated wire shelves per door with stainless steel tray slides included.
- Tray slides are compatible with 18"x26" and 12"x20" sheet pans,
- Plastic coated tray divider [except IRR-AGB23, IRR-AGB23-2 and IRR-AN23].

Doors

- Polyurethane insulated doors,
- Self closing doors with stay open feature
- Stainless Steel heavy-duty hinges
- Triple chamber snap in door gaskets for easy removal and cleaning,
- Field reversible doors,
- Doors locks,
- Full-height door opening [22-7/8" x 58-5/8"].

Interior features of IRR-AGB23BT

Expansion valve AGB models and AN model freezers

AN67

AGB45 RI

Refrigeration

- Forced air refrigeration system, expansive valve
- Digital temperature controller with automatic defrost system
- Energy-saving non-electric condensate pan
- Evaporator coil coated with anticorrosion material 100% Polyester -100 °F ambient
- Electronic fans
- Hot gas defrost for low temp units

Roll-in & roll-thru

Exterior

- Insulated bottom side with 0,8" [1 inch] thick with ramp included
- Built with removable panel for easy instalation

Interior

- AISI 304 stainless steel
- Panel thickness 3-3/16"

- Sealed interior floors and rounded cabinet corners
- Internal drain plug for easy cleaning.
- Includes a heated conical probe which is easy to use and remove

Shelving

- Compatible with 12" x 20" sheet pans in IBC-ABT31S [3 pans] and IBC-ABT71M [7 pans]
- Compatible with 18"x26" sheet pans in IBC-ABT51L [5 pans] and IBC-ABT71L [7 trays]

Doors

- Polyurethane insulated doors,
- Self closing doors with stay open feature
- Stainless Steel heavy-duty hinges
- Triple chamber snap in door gaskets for easy removal and cleaning
- Field reversible doors, except IBC-ABT31S
- Heated door frame to avoid accumulation of ice.

Legs

- Stainless Steel adjustable legs [except IBC-ABT31S]
- Levelling feet, only

Refrigeration

- Forced air refrigeration system, TXV valve
- Digital temperature controller with automatic defrost system
- Compact refrigeration system monoblock, INFRIBLOCK®
- Evaporator coil coated with anticorrosion material 100% Polyester -100 °F ambient
- American compressor TECUMSEH, 115 V 60Hz.

Digital control

- Interactive control screen & menu
- Up to 99 different customized cycles
- USB Connection

ABT10/14

ABT20

IBC-ABT10 1L & IBC-ABT14 1L / IBC-ABT20 1C

Exterior

- AISI 304 stainless steel
- Compliant with HACCP regulations
- Compatible with any standard pastry speed cart or combi trolley (only IBC-ABT202C model)

Interior

- AISI 304 stainless steel
- Sealed interior floors and rounded cabinet corners
- Internal drain plug for easy cleaning (only BC-ABT101L & IBC-ABT141L)
- Includes a heated conical probe which is easy to use and remove

Shelving

- Compatible with any oven (12"x20" and 18"x26" sheet pans) only BC-ABT101L & IBC-ABT141L

Doors

- Polyurethane insulated doors
- Self closing doors with stay open feature
- Heavy-duty hinges with horizontal and vertical adjustment
- Triple chamber snap in door gaskets for easy removal and cleaning
- Heated door frame to avoid accumulation of ice

Refrigeration

- Control panel with an easy to read screen and menu
- Manual defrost during cycles and automatic defrost during maintenance
- Evaporator coil coated with anti-corrosion material 100% Polyester
- Forced air refrigeration system
- Refrigerant gas R404A
- Drain pan with condensate heater (only BC-ABT101L & IBC-ABT141L)
- Blast chilling: +194°F to +37°F in less than 90 minutes
- Blast freezing: +194°F to 0°F in less than 4 hours

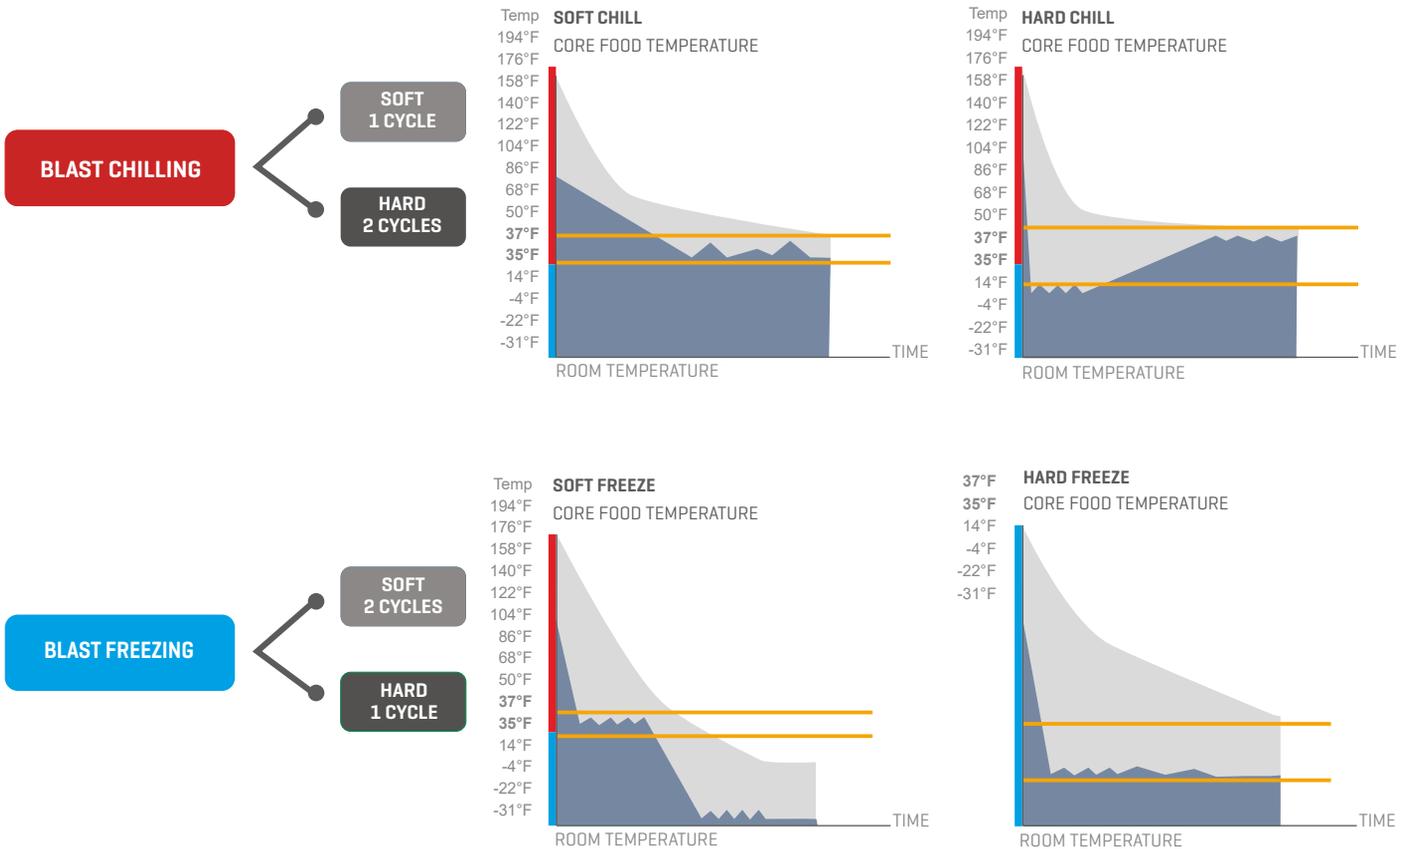

Digital control

- Interactive control screen & menu
- Up to 99 different customized cycles
- USB Connection

How blast chillers work & cycle functions

Blast chillers quickly reduce the core temperature of the products, whether they are cooked or fresh, conserving their fresh texture, hygiene and quality, while reducing the risk of generating bacteria. The traditional methods of storing cooked food has always been to leave it to cool naturally until it reaches a suitable temperature to store in the refrigerator.

During the period when the core temperature falls from 149°F to 50°F, food will lose a lot of its natural characteristics, such as moisture, consistency, aroma and color, furthermore, this is when bacteria begins to develop. INFRICO'S BLAST CHILLERS are designed to reduce the time period for this critical change in temperature.

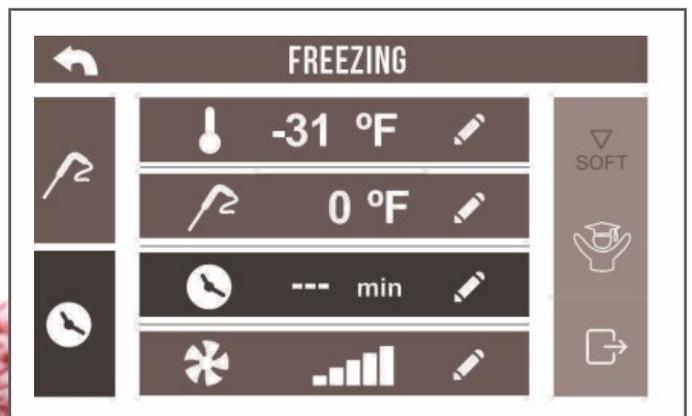

Blast chilling

Blast chilling allows cooked foods to maintain all of its original characteristics by quickly bringing the temperature down from 194°F to 37°F in less than 90 minutes and maintaining temperature between 32°F and 41°F, conserving the quality, aroma, color and consistency of the food.

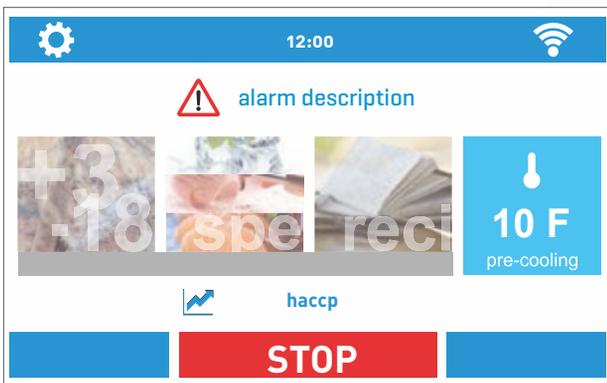

Shock freezing

The blast freezing cycle quickly freezes cooked food, transforming the liquid within the food to micro-crystals of ice, without damaging the cellular structure of the food. Internal food temperature falls from 158 °F to -0,4°F in less than 270 minutes.

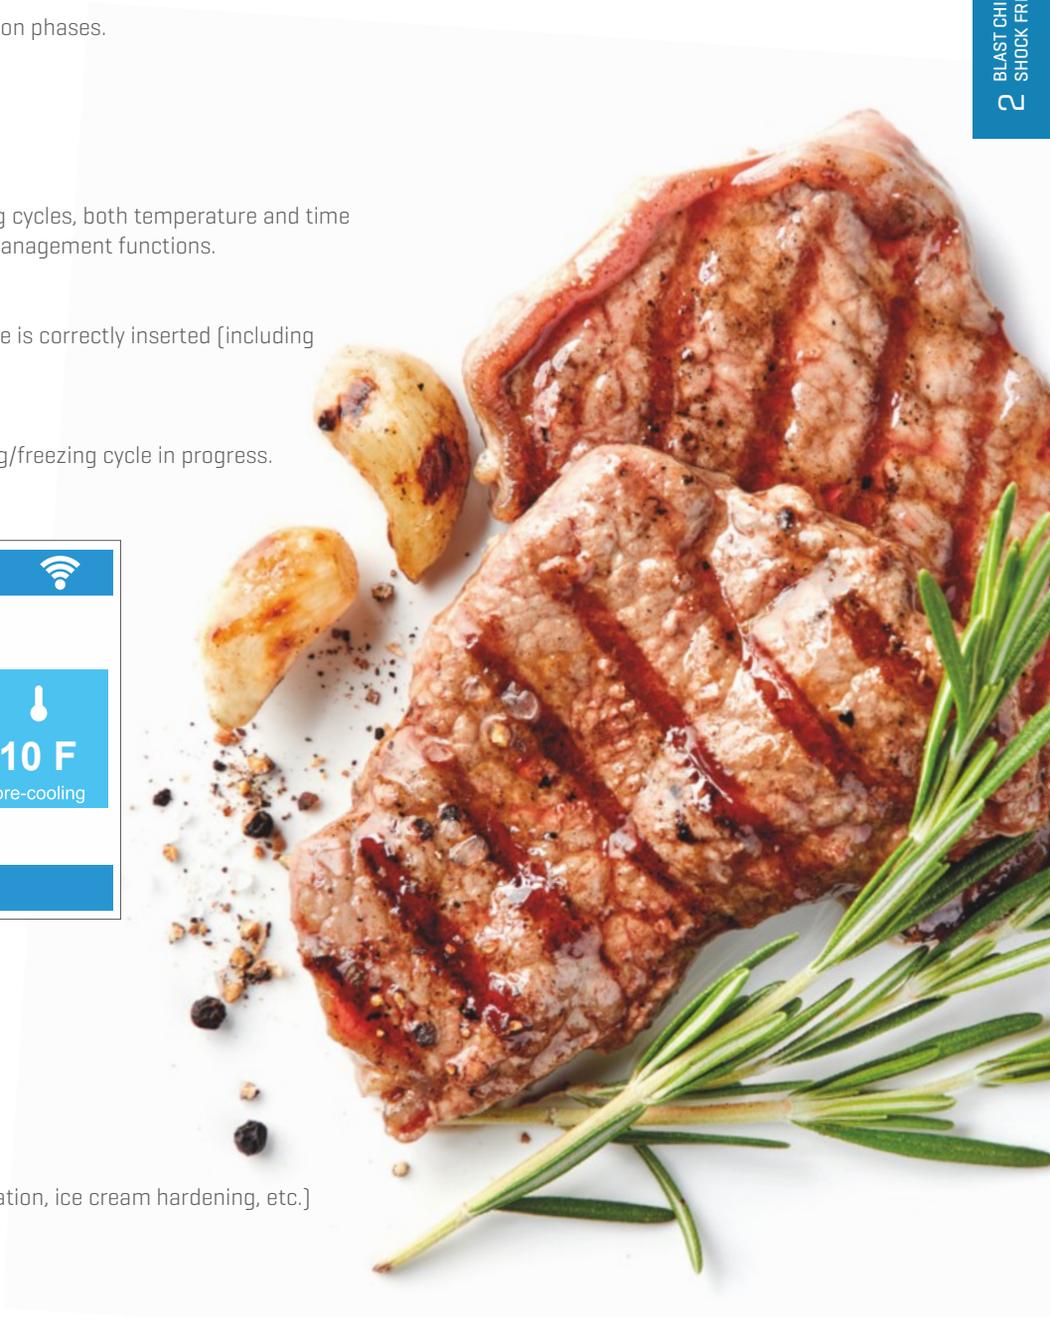

Main features

-  Stylish design, flush mounted, user-friendly.
-  Option personalized cycles with 3 regulation phases.
-  User interface with IP65 protection.
-  Management of blast chilling and freezing cycles, both temperature and time controlled, with hard/soft and intensity management functions.
-  Runs a test to check that the needle probe is correctly inserted (including multipoint probes).
-  Real-time graphic display for blast chilling/freezing cycle in progress.

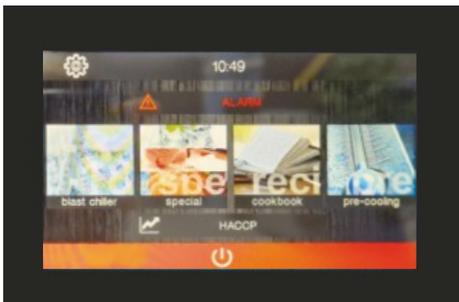

Benefits

-  Heated probe.
-  Management of special cycles (fish sanitation, ice cream hardening, etc.)
-  Possibility to personalize 99 programs.

Pizza prep tables

Exterior

- AISI 430 stainless steel
- AISI 304 stainless steel top
- Sealed interior floors and rounded cabinet corners

Insulation

- CFC-Free polyurethane insulation, entire cabinet structure is foamed-in place using a high density polyurethane insulation
- Low GWP & Zero ODP effect

Doors

- Polyurethane insulated doors
- Self closing doors with stay open feature
- Stainless Steel heavy-duty hinges
- Triple chamber snap in door gaskets for easy removal and cleaning
- Field reversible doors
- Doors locks
- Door opening WxH: 21-5/8" x 20-5/8"

Interior

- AISI 430 stainless steel
- Internal drain plug for easy cleaning.

Shelving

- [2] Two plastic coated wire shelves per section with stainless steel tray slides included
- Compatible with 12"x20" and 18"x26" pans

Refrigeration

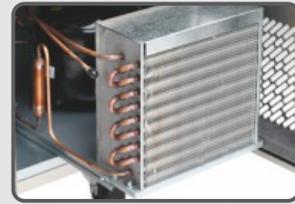

- Digital temperature controller with automatic defrost system
- Energy-saving non-electric condensate pan
- Extractable condensing unit for easy service
- Evaporator coil coated with anti-corrosion material 100% Polyester
- Forced air refrigeration system
- Refrigerant gas R290

Triple chamber snap in door gasket for easy cleaning

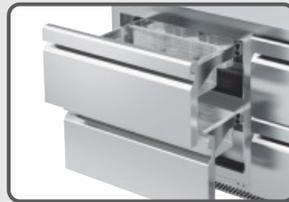

Rounded corners & sealed interior floor, NSF7, including drain plug for cleaning

Extractable side mounted condensing unit for easy service

Protected digital Controller, with automatic Defrost

Each guide supports 132 lb

5. Chef bases

A professional kitchen scene featuring a chef in profile, wearing a white toque and chef's coat. He is focused on his work, with his hands near several stainless steel pots on a gas stove. Bright yellow and orange flames are visible on the right side of the stove. In the background, there are hanging metal spoons and a window showing a cityscape. The lighting is warm and focused on the chef.

Specifications

Front bumper [VBC]

Anodized aluminium profile

VBC15R CP / S CP

VBR12R

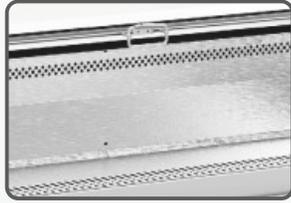

VBR18 SS

VBC Supermarket display counter for meat and deli

- Wide product range for all types of commercial sales
- Models without and with storage refrigerated to multiply the options of sales service
- Full visibility of display products
- Illuminated glass middle shelf
- Double row led lighting
- Designed specifically for meats and pre-cooked foods already packaged, delicatessen, dairy and sandwiches
- Ergonomic worktop in AISI304 stainless steel finish
- Exhibition area in AISI304 stainless steel
- Elevating front glass for easy access to exhibition and cleaning plan
- Structure and glass support in anodized aluminium profiles
- Temperature range: M1, M2 [ISO23953]

VBR Pastry display cases

- Flexibility of layout to combine different types of sales
- High capacity with four exposure levels
- Folding front tempered glass
- Interior exhibition in AISI304 stainless steel
- Glass shelves with anodized aluminium profile
- High pressure injected polyurethane insulation, CFC's free
- Front decoration in water-repellent DM high resistance lacquer
- Electronic control
- Automatic defrost
- 6000K led lighting on exposure, shelves and decorative
- Night curtain [SS model]

Night curtain [VBR SS]

Back doors [VBR R/PR]

VC015

VCO dual service display cases for bakery

- Dual service: refrigerated and ambient temperature
- Neutral upper part for the display and sale of neutral bakery product
- Bottom part for self-service refrigerated product sales
- Perfect mix for cross-selling in your sales area
- High capacity with 2 display levels

Lower part

- Module with built-in group
- High capacity with two exposure levels
- Interior in epoxy painted steel
- Front & side decoration in water-repellent DM high resistance lacquer
- High pressure injected polyurethane insulation, CFC's free
- Electronic control
- Night curtain
- Automatic defrosting
- Led lighting cold white 6000K on exposition deck

Upper part

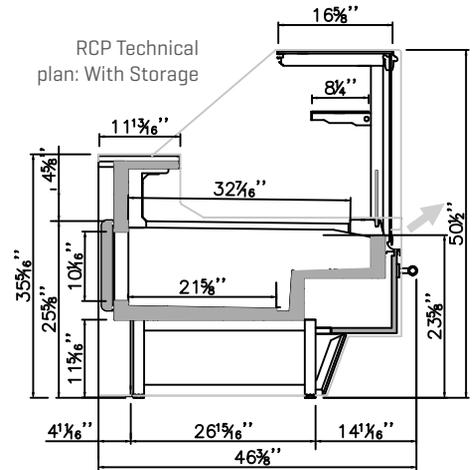

- Neutral module
- Tempered front glass
- Rear sliding doors
- Double side glass
- Glass top shelf
- Anodized aluminium profiles

Infrico USA

Limited warranty

2022 INFRICO USA LIMITED WARRANTY INFRICO USA

[further on stated as “INFRICO”) warrants to the original purchaser of every new INFRICO refrigerated unit, the cabinet and all parts thereof, to be free from defects in material or workmanship, under normal and proper use and maintenance service as specific by INFRICO and upon proper installation and start-up in accordance with the instruction packet supplied with each INFRICO unit. INFRICO’s obligation under this warranty is limited to the following conditions upon each date of invoice:

- PartsFive (5) years
- LaborFive (5) years
- CompressorSeven (7) years

All parts covered under this specific above stated warranty that are determined as failures by INFRICO, are limited to the repair or replacement, including labor charges of defective parts or assemblies.

WARRANTY CLAIM PROCEDURE

All claims for labor or parts must be made directly through INFRICO. All claims should include model number of the unit, the serial number of the cabinet, proof of purchase, and all pertinent information supporting the existence of the alleged defect. Warranty starts the day of shipment.

Based on the reported case, INFRICO will program the service attention either by sending an authorized technician to the place indicated by the Customer in order to solve the situation or will send the necessary spare parts for its repair.

This contract does not apply outside the limits of the USA and CANADA. Nor does it apply to any part which has been subject to misuse, neglect, alteration, accident or to any damage caused by transportation, flood, fire, or the acts of God. This contract is not effective unless the INFRICO Warranty Claim Card, furnished to the distributor, is properly filled out and mailed to service@infrico.com within 24 HOURS from the date of delivery. The term “Original Purchaser” as used herein shall be deemed to refer to that person, firm, association, or company for whom the refrigeration unit refers to herein is originally installed.

WHAT IS NOT COVERED BY THIS WARRANTY

INFRICO’s sole obligation under this warranty is limited to either repair or replacement of parts, subject to the additional limitations below.

This warranty neither assumes nor authorizes any person to assume obligations other than those expressly covered by this warranty.

No consequential damages:

INFRICO is not responsible for economic loss; profit loss or special indirect or consequential damages, including without limitation, losses or damages arising from food or product spoilage claims whether or not on account of refrigeration failure.

Warranty is not transferable:

This warranty is not assignable and applies only in favor of the original purchaser/user to whom delivered. Any such assignment or transfer shall void the warranties herein made and shall void all warranties, express or implied, including any warranty of merchantability or fitness for a particular purpose.

Improper use:

INFRICO assumes no liability for parts or labor coverage for component failure or other damages resulting from improper usage or installation or failure to clean and/or maintain product as set forth in the warranty packet provided with the unit.

ALTERATION, NEGLECT, ABUSE, MISUSE, ACCIDENT, DAMAGE DURING TRANSIT OR INSTALLATION, FIRE, FLOOD, ACTS OF GOD:

INFRICO is not responsible for the repair or replacement of any parts that INFRICO determines have been subjected after the date of manufacture to alteration, neglect, abuse, misuse, accident, damage during transit or installation, fire, flood, act of God or improper electrical connections. INFRICO is not responsible for the repair or replacement of failed or damaged components resulting from electrical power failure, the use of extension cords, low voltage, or voltage drops to the unit.

No implied warranty of merchantability or fitness for a particular purpose:

There aren’t any other warranties expressed, implied or statutory, except the warranties as described above. These warranties are exclusive and in lieu of all other warranties, including implied warranty and merchantability or fitness for a particular purpose. There are no warranties which extend beyond the description on the face hereof.

Outside USA & CANADA:

This warranty does not apply to, and INFRICO is not responsible for, any warranty claims made on products sold or used outside the United States of America and Canada.
